Why delays in many discipline reviews and/or finalization of descriptors/TMCs?

For many faculty discipline review groups (FDRGs) we are awaiting CSU faculty appointments thus delaying course descriptor final reviews or CCC course submission reviews – please help us in locating potential faculty!! Ask your own faculty for names of CSU/UC discipline colleagues who might be willing to become either Faculty Discipline Review Group (FDRG) members or Course Outline of Record Evaluators (COREs). You can send faculty names to holly@asccc.org

FDRG members needed in:

Anthropology, Art History, Economics, Engineering, English, Information Systems, History, Physics, Political Science, Theatre

What are the primary reasons that courses are not approved for a C-ID number?

1. The incorrect CoR was submitted for the C-ID descriptor
2. The CoR was too old – more than 5 years old. Please ensure that the textbooks on your CoRs are current.

What is the primary reason that courses are conditionally approved?

1. Textbooks are more than 5 years old.

C-ID Catalog language is being considered at the C-ID Advisory Meeting this week!

We hope to have appropriate catalog language available (via the CIAC list-serve) very soon
