The following are major and curriculum changes in the ASSIST articulation agreements for the 2015--2016 academic year.

New courses added to UCSD curriculum

BILD 4 Introductory Biology Lab
CENG 15 / NANO 15 Engineering Computation Using MATLAB (Now available for articulation review)
COGS 10 Cognitive Consequences of Technology
PSYC 2 General Psychology: Biological Foundations
PSYC 7 General Psychology: Cognitive Foundations
PSYC 70 Research Methods in Psychology
SOCI 70 General Sociology for Pre-Medical Students
VIS 30 Introduction to Speculative Design (Must be taken at UC San Diego)
VIS 41 Design Communication
VIS 80 Introduction to Studio
If you feel that you teach any of these courses (except courses that must be taken at UCSD), please send me course outlines.

Revised Courses

VIS 23 Information Technologies in Art History (Course must be taken at UC San Diego)

New majors effective Fall 2015

International Studies - International Business B.A.
Literature: U.S. Latino/a & Latin American Literatures B.A.
Psychology B.S. with a Specialization in Clinical Psychology
Psychology B.S. with a Specialization in Cognitive Psychology
Psychology B.S. with a Specialization in Developmental Psychology
Psychology B.S. with a Specialization in Human Health
Psychology B.S. with a Specialization in Sensation and Perception
Psychology B.S. with a Specialization in Social Psychology
Visual Arts/Speculative Design B.A.

Revised Major Names effective Fall 2015:

Literature; U.S. Latino/a and Latin American Literatures B.A. (formerly Literature; Spanish and Latin Literature B.A.)

Terminated courses at UCSD effective Fall 2015
ICAM 40 Introduction to Computing in the Arts (VIS 40 Introduction to Computing still active in curriculum)
Math 11L Elementary Probability and Statistics Laboratory (lab added to Math 11 and course units increased to 5)

The following majors had some changes:

Bioengineering: Major Description text changes for required screening courses.

Biological Sciences: Major Description text changes. The UCSD Biological Science department added a new course BILD 4 Introductory Biology Lab. If your community college had existing articulation with BILD 1, 2, 3 then you were granted BILD 4 articulation with the previously articulated courses. No additional articulation proposals are required. Math 11 added as a major option.

Chemistry/BioChemistry: Major Description text changes.

Cognitive Science: The Cognitive Science department has reviewed all CCC's UC Transferable courses for possible articulation with UCSD lower division major preparation courses. We have notified you of the results via email and published the courses on ASSIST.ORG.

Communication B.A.: Major Description text changes.

Computer Science & Engineering: Major Description text changes for required screening courses.

Economics: Major Description text changes.

Electrical & Computer Engineering: Major Description text changes for required screening courses.

Global Health B.A.: Added Soci 70 as an option for major prep

ICAM B.A.: ICAM 40 Introduction to Computing in the Arts (VIS 40 Introduction to Computing still active in curriculum)

International Studies: Major Description and text changes. Added new major International Studies-International Business B.A.

Literature: Major Description text changes. Revised major name. Literature; U.S. Latino/a and Latin American Literatures B.A. (formerly Literature; Spanish and Latin Literature B.A.)

Mathematics: Major Description text changes. CSE 11 added as an option to Mathematics/Secondary Education B.A. Math 11L Elementary Probability and Statistics Laboratory (lab added to Math 11 and course units increased to 5)

Mechanical & Aerospace Engineering: Major Description text changes for required screening courses.

NanoEngineering: Major Description text changes for required screening courses. CENG 15 / NANO 15 Engineering Computation Using MATLAB (Now available for articulation review)

Physics: Major Description text changes across all majors.

Psychology: The Psychology department has reviewed all CCC's UC Transferable courses for possible articulation with UCSD lower division major preparation courses. We have notified you of the results via email and published the courses on ASSIST.ORG. Major Description text changes and lower division requirement changes in majors. Added 6 majors, refer above for the list of new added courses and majors.

Public Health B.S.: Major-prep and description text changes

Sociology: Soci 70 Introduction to Sociology for Pre-Medical Students added

Structural Engineering: Major Description text changes for required screening courses

Visual Arts: Major description changes. Added major Visual Arts/Speculative Design B.A. and new courses (refer above).
