

How to Respond to a Request for a Syllabus An Important Message from Your Articulation Officer

Hello Mesa Community,

Welcome Back!

Former students, colleges and universities may request to receive a course syllabus. The reason for the request is usually due to the need for an evaluation of a course for equivalency in meeting an academic requirement in a major or for graduation.

The official document provided by California Community Colleges for the evaluation of course content is the course outline of record (COR). CORs are used by Articulation Officers in submitting proposals to establish and maintain articulation agreements.

There have been recent challenges establishing and maintaining articulation agreements. Several colleges and universities have denied articulation proposals due to the evaluation of the syllabus, instead of the COR. The information contained in syllabi varies from professor to professor and often lacks the necessary content for course equivalency/articulation evaluation.

I respectfully request that you **not** provide a syllabus to anyone other than students enrolled in your current course (s). If a request for a syllabus is received, please direct the person to CurricUNET <http://www.curricunet.com/SDCCD/> to obtain a COR. Active CORs are available to the public without the need for a CurricUNET user name or password. Requests may also be re-directed to Sue Saetia (ssaetia@sdccd.edu) or me.

Thank you for your continued contribution to articulation efforts.
