

Black Leadership Fellows: Strengthening our Campus Community

Jordan Nash – Adjunct Counselor & BLF Support

Robyn Bolden – Black Leadership Fellow

Larry Maxey – VPSS

Our Purpose

- While creating events on campus for our students, our goal is to **build and develop community**, increase student engagement, and create rapport between students, staff and faculty.
- Each event is intended to create a **safe & brave space for Black students** on campus and promote **equity, inclusion, and involvement**. By doing so, we are aiming to help our students find their **sense of belonging** and **foster their success** here at Mesa.

Reflection's

- How we are reaching out to students?
- Why were doing this work and our intention?
- How students are responding to this initiative?

Our Collaborations

As Black Leadership Fellows, we understand and embrace the varying experiences that our students bring with them. We celebrate and welcome students and their intersectional identities, encouraging them to be their authentic and whole selves.

"TAKING A STAND AGAINST HUNGER"

Events

By creating, planning, and hosting events on and off campus, we can foster a sense of community for our students. When the campus comes together to support our students, we reinforce them and increase their opportunity for success.
