- \* M. Parsons' proposal to CIC regarding discipline deans and their roll in the six year review process will be discussed at the December 9, 2010 CIC meeting.
- \* The SB 1440 implementation is moving fast and some (more than one) Transfer Model Curriculum (TMC) degrees must be in place by fall 2011. M. Parsons will email committee members the current five proposals that are ready for community colleges to adopt. By January another five TMC degrees should be ready. At the fall Academic Senate Plenary state officials indicated the review and approval of these degrees would be expatiated and requested colleges to delay catalog deadlines if possible so the degrees can be listed in their catalogs or that an addendum to the catalog be published. The local process is not clear but the committee needs to be ready to approve several of these TMC degrees. M. Parsons stated she would recommend the TMC Math degree be adopted as it is very close to Mesa's current Math degree.
- \* M. Parsons informed the committee that 296 courses are stand alone courses and requested members to take back to their departments that 296 courses should be deactivated if they haven't been offered within the last three years.
