MT2C Program: Leadership Training
Systems Thinking & Creating Space
Professional Learning Outcomes

I will start involving myself in conversations that impact the educational system as a whole, using systems thinking to remember I am already a part of that system

I will begin tutoring with an open mind and considering the various experiences of tutees. I hope to start my sessions with a check-in and make sure I know students' names so they know I care and take interest in them

I will continue to learn from my colleagues' insights about access and equity and participate in efforts to improve accessibility

I will foster kindness within a safe space I have created-- not just for my tutees, but for myself, too. This includes being kind to myself especially

I will challenge the biases against tutoring/asking for help within the AAPI community

Why Do A Furniture Refresh in the Learning Resource Center?

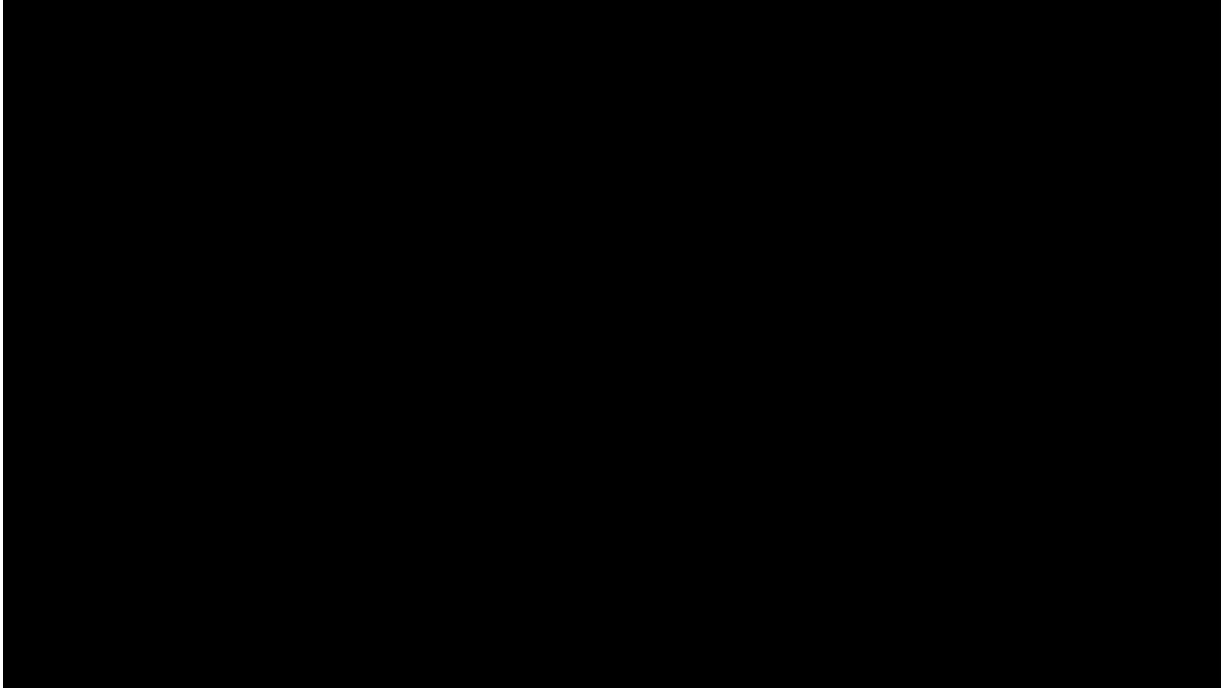

The Building Changed With The Times
- We Added…
  - High Tech Center, Writing Center, Tutoring, Professional Learning (LOFT), STEM Center and the Language Center
- Each New Area Had New Funding
- The 3rd and 4th Student Areas Remained Untouched, with 34 Year Old Furniture…
