Chemistry Peer Mentor Alexis Pellegrin

Hello everyone!

My name is Alexis, and I'm thrilled to be joining the Chemistry Peer Mentoring team this year. I'm currently preparing to transfer next fall as a Chemical Engineering major, with a strong interest in pursuing a career in either waste management or food production.

Ever since my first semester at Mesa, the Peer Mentoring program has been an extremely helpful resource. I'm incredibly grateful for the support I have received and excited for the opportunity to give back to the community.

Outside of school, I like to spend time playing Chess and reading. Besides that I also spend a lot of money on Pokémon cards and yerba matte teas!

I'm looking forward to connecting with you all and supporting your success in chemistry this year!
