

SAN DIEGO MESA COLLEGE

Equity, Excellence, Éxito

Biology Peer Mentor Aranza Martinez

Hi everyone, my name is Aranza. I'm a second-year international student here at Mesa studying Biology, with the intent of transferring in 2027. I'm so excited to be one of your peer mentors this semester for BIO 210A!

My deep interest in medical science and the arts has led me to pursue a career in Biomedicine with a focus in Immunology, and if I take it even further, I might follow a clinical approach.

For many of us, STEM classes can be challenging. As biology fascinates me, I hope to share a little of that excitement with you, making the content feel a bit lighter and sparking your curiosity! I want tutoring to be

a safe space for you and remember: no question is ever unworthy of being asked.

Outside of college, I spend my free time painting, going out with friends and family, and swimming or running to stay active.

Please don't hesitate to ask for help, we all need some to succeed! :)
