Chemistry Peer Mentor Charly Flores-Houng

Hi, I'm Charly! I have been attending Mesa for 2 years to complete the prerequisites needed to attend a graduate program and become a Physician Assistant. When I'm not on campus I volunteer at Scripps Mercy hospital and help the nurses on the definitive observation unit.

A few fun things to know about me is that yoga is my favorite activity, I love to read fiction, I am training to run my first half marathon in May and I have a 605 day streak learning Italian on Duolingo.

I greatly relied on the Peer Mentoring program and Chem 152 was the very first STEM course I took when I came back to school. I know what it's like to feel intimidated and overwhelmed by a science class and I know that getting support is the best way through the challenge. I look forward to meeting everyone and will do my best to help you succeed in Chem 152!
