Equity, Excellence, Éxito

Biology Peer Mentor Lilou Vega

Hi! My name is Lilou Vega and this is my second year at Mesa College.

I am currently pursuing a Microbiology/Immunology major, and hoping to transfer to UCLA in fall 2026.

I fell in love with STEM (especially biology) last semester when I took Bio 210A, and I am so excited to help others love it too! I've been a part of some STEM workshops, including the SCE experience at the Miramar campus and the Biochemistry Workshop hosted by Dr. Williams at Mesa, so feel free to reach out if you need any tips or advice!

Fun fact: I am fluent in French and the lead singer of my band, *The Rosebuds*.
