San Diego Mesa College Physical Therapist Assistant Program Information

Accreditation

The Physical Therapist Assistant Program at San Diego Mesa College is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave. Suite 100, Alexandria, Virginia 22305-3085; telephone 703-706-3245; email: accreditation@apta.org; website: <http://www.capteonline.org>. If needing to contact the program/institution directly, please call 619-388-2229 or email ajohnsto@sdccd.edu

PTA Program Mission Statement

The primary mission of the Physical Therapist Assistant Program at San Diego Mesa College is to provide excellence in the education and development of competent physical therapist assistants that provide high quality patient care through evidence-based practice to diverse populations and become leaders within the health care community and profession.

PTA Program Philosophy & Goals

The students will be educated in a manner which will enable them to perform all aspects of the profession of physical therapy relevant to their level of responsibility in the profession; to perform those activities in a safe, legal, ethical and empathetic manner with a heightened self-awareness as a caregiver; to exhibit an ability to develop critical thought; to complete and continue activities which indicate the development and pursuance of personal growth.

1. Consider, select and advance those students who meet academic qualifications established by the college and the program.
2. Design, implement, revise and evaluate an educational program which enables the student to acquire sound foundations in knowledge, skills and attitudes essential to providing optimum patient care.
3. Select, coordinate and evaluate a broad range of clinical experience as part of the learning experiences.
4. Engender professional and ethical conduct stipulated by the American Physical Therapy Association Code of Ethics and the State of California Physical Therapy Practice Act.
5. Support diversity, equity and inclusion within the profession by providing an equitable opportunity of entry and support congruent with successful completion of the PTA program, to best serve the community and advance the profession to improve the health of society.

PTA Program Outcomes

At the completion of the physical therapist assistant program's curriculum, the graduate will be able to:

- Select and perform safe and effective interventions within the:
 - Physical Therapist Assistant (PTA) scope of practice.
 - Physical therapist's plan of care.
- Demonstrate knowledge of California physical therapy laws and regulations.
- Demonstrate ethical and professional behaviors consistent with professional standards and practice.
- Communicate effectively, both verbally and in writing, as appropriate for a PTA.
- Participate in self-assessment and develop plans to improve knowledge, skills, and behavior as appropriate for a PTA.
- Incorporate an understanding of the implications of individual and cultural differences, and adapt behavior and delivery of care accordingly in all aspects of physical therapy services with respect to patients' values, preferences, and needs.

Information Sessions

Information sessions for the PTA Program are mandatory and will be held in two formats. Applicants must either attend a Zoom Information Session or watch the pre-recorded Information Session posted on the website.

Zoom Information Sessions will be held 2-3 times in each Fall and Spring semester and are free to attend. RSVP's are not required for attendance. Please check the website regularly for any updates to the information session schedule and Zoom link [PTA Program Website](#)

The pre-recorded Information Session is posted on the website.

Attendance at a Zoom Information Session or viewing of the pre-recorded Information Session is required to ensure the applicant is prepared and completed the application process correctly. Applicants will confirm completion of this requirement in the online application.

Transcript Information

Applicants are required to upload unofficial transcripts for **ALL** prerequisite courses and language verification when they submit their online application. This includes uploading unofficial transcripts for any course completed in the district (Mesa, City or Miramar) and any in-progress prerequisite course.

Additionally, applicants are required to submit **official transcripts** to SDCCD for any courses that were not completed within the district (Mesa, City or Miramar). Please view the [Transcript Webpage](#) for up to date directions on how to submit your official transcripts.

*PHYR 291 may be offered in the summer session. If the student completes PHYR 291 in the summer, they will not enroll in PHYR 291 in the semester III.

Continuation in the program is predicated on the successful completion of each semester. The courses in each semester act as the prerequisites for the next semester's work.

Graduation Requirements

All PTA Program graduates must earn the associate degree including PTA program curriculum and general education (GE) requirements in order to sit for the National Physical Therapy Examination for the PTA.

As the Program is an Associate Degree curriculum, the District-required general education (GE) courses must be completed before graduation. In the PTA program, the entrant should plan on having the GE courses completed before the third semester (and not have a work schedule that could interfere) in order to allow for full time availability for directed clinical practice. This availability in the third and fourth semester allows for increased ease in providing a well-rounded clinical experience.

The entrant is encouraged to complete as many of the GE courses (Multicultural, P.E., Humanities, etc.) as possible prior to entering the program so as to allow for an increase in time to be spent on study or work while in the program. Completion also allows for an ability to have increased flexibility to participate in directed clinical practice.

In an agreement with the School of Exercise Science, Health Education, and Athletics, the graduates of the program are exempt from completing the district's Health Education course degree requirement.

Frequently Asked Questions

1. How can I find out if the courses I have taken outside of the San Diego Community College District will transfer or meet the prerequisite course requirements?

You will find general information on the prerequisite courses in this packet. All coursework must be completed at a regionally-accredited college. It is recommended that you meet with an academic counselor with specific questions regarding prerequisites and general education requirements.

2. Can you give me a list of facilities where I can complete my observation hours?

We do not have a list of facilities that can be sent to you. It is recommended that you contact facilities close to where you live and ask if they will allow you to observe physical therapists or physical therapist assistants. Some facilities have waiting lists for people to observe so you should contact facilities as soon as possible. Information about potential sites will only be given at Information Sessions. Dates and times of information sessions may be found on the Allied Health website page.

3. Can I complete the program in less than two years?

No, the program cannot be completed in less than two years since the technical courses are taught sequentially and require two full years for completion.

4. Can I work while completing the PTA program?

Students are encouraged to have a flexible work schedule if they are working while completing the PTA Program. The PTA Program uses a cohort model with all students in classes together for the 2 years of the program. Classes are offered at a specific day and time and do not have flexibility to adjust. Attendance is mandatory for all classes.
